SUPER DEALS ON ALL SPRAY EQUIPMENT

GET **WEEDS UNDER CONTROL** FOR AUTUMN!

Offers valid from 01/03/2017 to 31/05/2017. Pricing is based on March 2017 Optima Buyers' Guide. Prices and specifications are subject to change without notice. All prices are inclusive of GST. Freight charges are not included in any of the advertised prices. Photos are for illustrative purposes only.

CROPLANDS LINKAGE SPRAYERS THE BEST IN THE BUSINESS

WHY PURCHASE A CROPLANDS 3-POINT LINKAGE SPRAYER?

The new 300, 600 and 800 litre Croplands linkage sprayers have superior features to all other brands, and are the best value for money. Here's what you get:

- A large flushing tank – flush your sprayer out in the field as soon as your spraying is done
- A handwash tank for operator safety – clean your hands or use the water to clean your filter in the field if needed
- Fully galvanised frames and booms – longer lasting
- UV-stabilised translucent tank that reflects light and resists UV – see what is in your tank at a glance
- 80 L/min chemical and liquid fertiliser-resistant poly triple-diaphragm pump
- Tank agitation uses excess flow from the pump and a venturi tank agitator – keeps your tank-mix in suspension
- Standard with NEW 5–tap control – exclusive to Croplands – one for the venturi agitation, one for hose reel (if fitted), and three for boom shut offs (if boom is fitted)

BIG SPREADER SAVINGS
ORDER NOW!
ALL NEW MODELS ARRIVING APRIL

Croplands has teamed up with AGREX – a leading European manufacturer of high quality fertiliser spreaders. At the EIMA show in Italy in November 2016 AGREX and Croplands technicians reviewed specifications having regard to the Australian market and agreed on the features being offered as the most suited to Australian conditions to make the NEW Croplands spreader range reliable, rugged and dependable. Stock is on the water now – order from your Croplands dealer for April/May delivery and get set for your spring fertiliser applications!
